Compare current ratings of properties to see which properties are more energy efficient
Find out how you can save energy and money by installing improvement measures

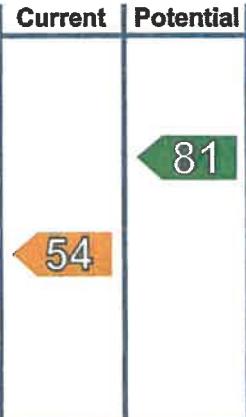

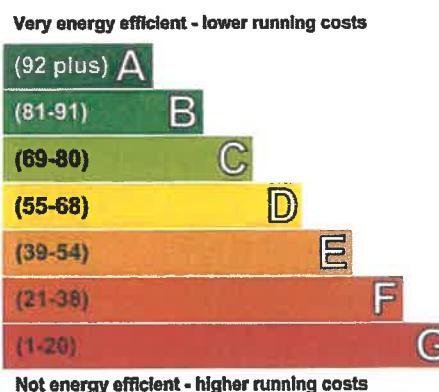

| | |
|---|---------|
| Estimated energy costs of dwelling for 3 years: | £ 8,505 |
| Over 3 years you could save | £ 4,317 |

Estimated energy costs of this home

| | Current costs | Potential costs | Potential future savings |
|------------------|----------------------|----------------------|---|
| Lighting | £ 645 over 3 years | £ 321 over 3 years | |
| Heating | £ 7,524 over 3 years | £ 3,531 over 3 years | |
| Hot Water | £ 336 over 3 years | £ 336 over 3 years | |
| Totals | £ 8,505 | £ 4,188 |  You could save £ 4,317 over 3 years |

These figures show how much the average household would spend in this property for heating, lighting and hot water and is not based on energy used by individual households. This excludes energy use for running appliances like TVs, computers and cookers, and electricity generated by microgeneration.

Energy Efficiency Rating

The graph shows the current energy efficiency of your home.

The higher the rating the lower your fuel bills are likely to be.

The potential rating shows the effect of undertaking the recommendations on page 3.

The average energy efficiency rating for a dwelling in England and Wales is band D (rating 60).

The EPC rating shown here is based on standard assumptions about occupancy and energy use and may not reflect how energy is consumed by individual occupants.

Top actions you can take to save money and make your home more efficient

| Recommended measures | Indicative cost | Typical savings over 3 years | Available with Green Deal |
|--|------------------|------------------------------|---|
| 1 Room-in-roof insulation | £1,500 - £2,700 | £ 714 |  |
| 2 Internal or external wall insulation | £4,000 - £14,000 | £ 2,667 |  |
| 3 Floor insulation (solid floor) | £4,000 - £6,000 | £ 210 |  |

See page 3 for a full list of recommendations for this property.

Recommendations

The measures below will improve the energy performance of your dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions you could take today to save money is available at www.gov.uk/energy-grants-calculator. Before installing measures, you should make sure you have secured the appropriate permissions, where necessary. Such permissions might include permission from your landlord (if you are a tenant) or approval under Building Regulations for certain types of work.

Measures with a green tick  may be supported through the Green Deal finance. If you want to take up measures with an orange tick  through Green Deal finance, be aware you may need to contribute some payment up-front.

| Recommended measures | Indicative cost | Typical savings per year | Rating after improvement | Green Deal finance |
|---|------------------|--------------------------|---|---|
| Room-in-roof insulation | £1,500 - £2,700 | £ 238 |  D58 |  |
| Internal or external wall insulation | £4,000 - £14,000 | £ 889 |  C72 |  |
| Floor insulation (solid floor) | £4,000 - £6,000 | £ 70 |  C73 |  |
| Draught proofing | £80 - £120 | £ 89 |  C74 |  |
| Low energy lighting for all fixed outlets | £95 | £ 90 |  C76 | |
| Heating controls (thermostatic radiator valves) | £350 - £450 | £ 63 |  C77 |  |
| Solar photovoltaic panels, 2.5 kWp | £5,000 - £8,000 | £ 251 |  B81 |  |

Opportunity to benefit from a Green Deal on this property

Green Deal Finance allows you to pay for some of the cost of your improvements in instalments under a Green Deal Plan (note that this is a credit agreement, but with instalments being added to the electricity bill for the property). The availability of a Green Deal Plan will depend upon your financial circumstances. There is a limit to how much Green Deal Finance can be used, which is determined by how much energy the improvements are estimated to save for a 'typical household'.

You may be able to obtain support towards repairs or replacements of heating systems and/or basic insulation measures, if you are in receipt of qualifying benefits or tax credits. To learn more about this scheme and the rules about eligibility, call the Energy Saving Advice Service on **0300 123 1234** for England and Wales.
